**COMPANY PROFILE:**

Founded in 1979, QAD has been recognized as a leading provider of enterprise resource planning (ERP) software applications for global manufacturing companies. Today, QAD enterprise applications leverage advances in Internet and enabling technologies to provide critical functionality for managing manufacturing resources and operations within and beyond the enterprise, enabling global manufacturers to collaborate with their customers, suppliers and partners to make and deliver the right product, at the right cost and at the right time.

QAD has built a solid customer base of global Fortune 1000 and mid-market manufacturers who are excellent prospects for QAD's enterprise applications. With a proven track record of more than 30 years of industry leadership, QAD is ideally qualified to meet the business and technology requirements of global manufacturing companies worldwide. We develop our products with constant and direct input from leading global manufacturers within the industries we serve. This industry focus is a key differentiator for QAD, enabling our customers to implement QAD applications rapidly, realize a rapid return on investment, and achieve a low total cost of ownership compared with other vendors targeting the industries we serve.

QAD Enterprise Applications can be deployed as a SaaS solution or as a traditional On Premise deployment, or as a hybrid mixture of the two.

QAD Cloud ERP is the industry's only full-strength enterprise resource planning (ERP) solution in the cloud, created exclusively for manufacturing companies, like yours. Whether you're a growing start-up or an established global brand, with QAD Cloud ERP you can harness all of the power of QAD Enterprise applications.
