COMPANY PROFILE:

With 25 years' experience, HSO is a leading provider of ERP software solutions designed specifically for the equipment rental, manufacturing and maintenance industry. Powered by the Microsoft Dynamics platform, HSO combines both industry-specific knowledge and enterprise grade technology to enable equipment companies to run their businesses profitably on a leading industry-standard technology platform.

HSO's innovative ERP solution offers equipment rental and asset management companies a customer driven suite of tools that helps them plan, operate, and power cross-organisation performance. Our international availability means we can comfortably manage large multi-site implementations while providing the local expertise you need, wherever you are.
