COMPANY PROFILE:

With more than 400,000 customers and with deployments across a wide variety of industries in more than 145 countries, Oracle offers a comprehensive and fully integrated stack of cloud applications, platform services, and engineered systems.

Modern cloud applications from Oracle like Enterprise Resource Planning (ERP), Supply Chain Management (SCM), Customer Experience Management (CX), Human Capital Management (HCM), Enterprise Performance Management (EPM) help you re-imagine your business. The best-of-breed Software as a Service (SaaS) applications in Oracle Cloud are integrated with social, mobile, and analytic capabilities to help you deliver the experiences customers expect, the talent to succeed, and the performance the market demands.
